Subject: Use of Antibiotics in Animal Feed
Auto forwarded by a Rule

Dear Ms. Henney,

As a member of the Center for Science in the Public Interest (CSPI), I urge you to save human lives by banning the use of medically useful antibiotics in animal feed. Adding antibiotics to feed in order to promote growth can make bacteria resistant to those antibiotics. And that can leave physicians with no way to treat life-threatening bacterial infections in human.

I have already had some personal experience with certain antibiotics being ineffective. That's why I support the petition filed by CSPI.

Please consider their petition to ban the use of antibiotics in animal feed.
